Finding Movie Buddies

Creating a Graph

Write each person's name in a circle on the left side

Draw circles with movie names inside on the right side

Draw connections from person → movie

Using Graphs To Find Stories

Who has the most connections?

Which movies are the most popular?

How can we use this graph to recommend a movie?

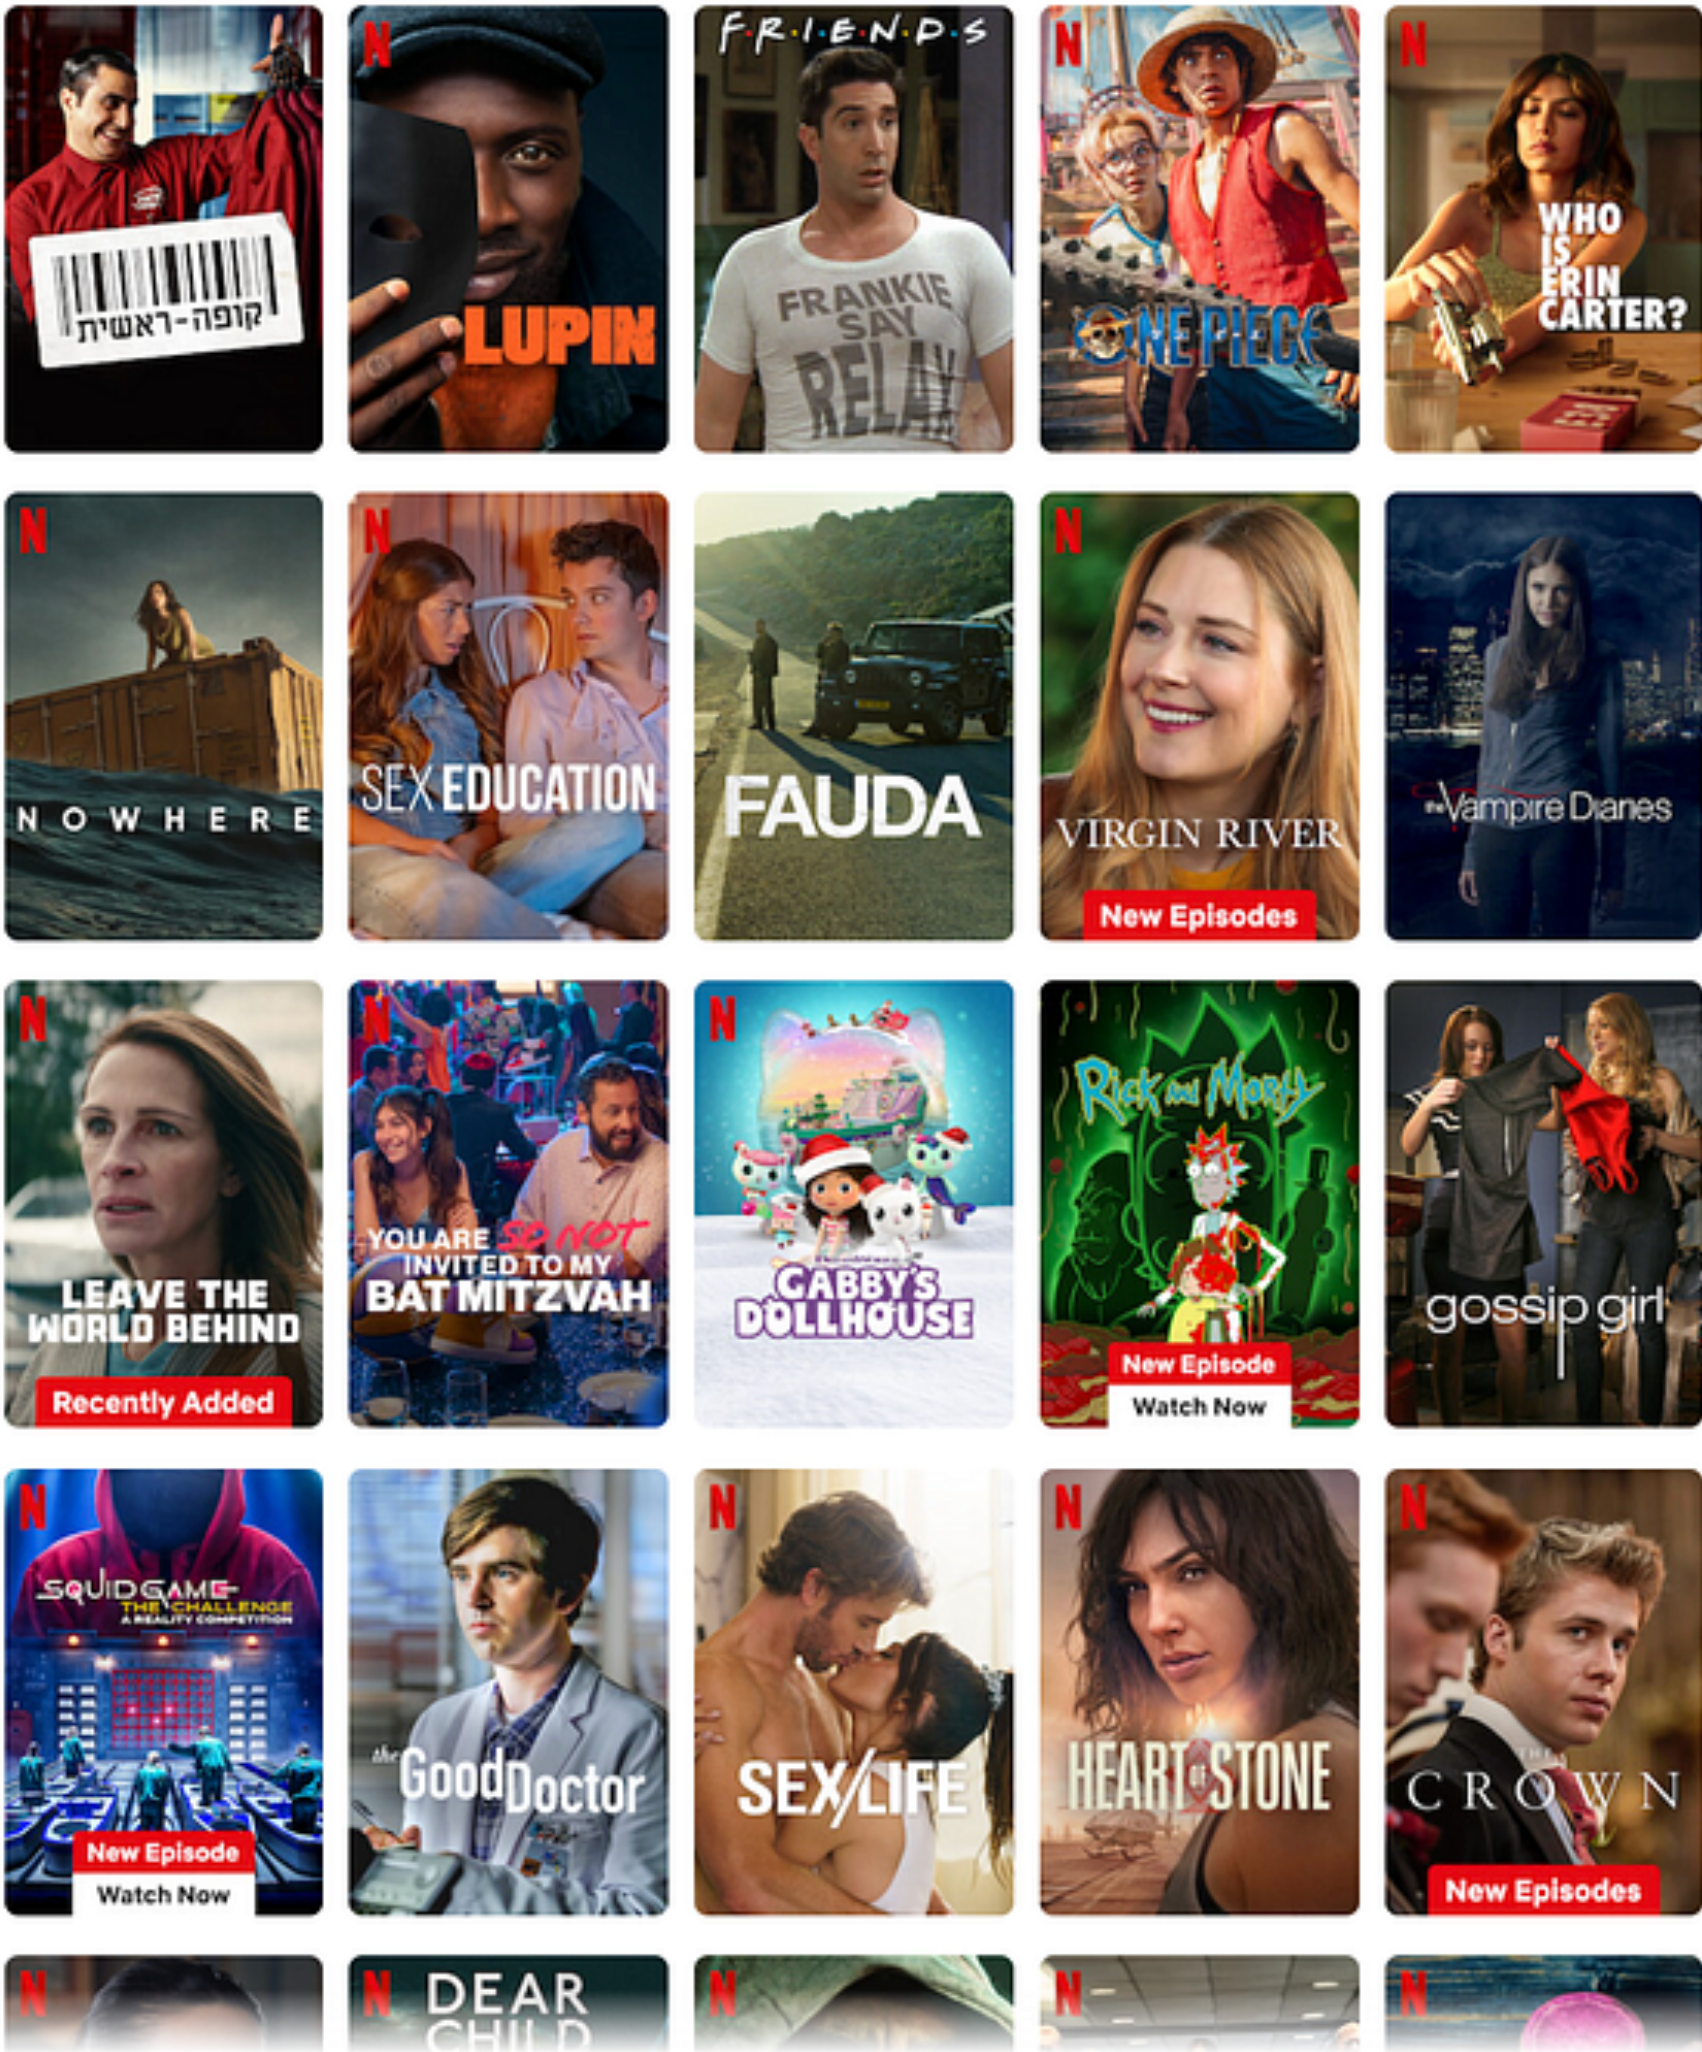

Different Visualizations for Different Kinds of Stories

Eric, select 3 you like.

This helps us to find TV shows and movies you'll love.
Select the ones you like.
